Acknowledge

As we understand that the Project is a step-by- step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation It is a project implementation at your fingertips An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. ladder approach
- ✓ Build a larger more robust application
- ✓ Usage of certain utilities in applications designed by user
- ✓ Single program to unified code leading to a complete application
- ✓ Learn implementation of concepts in a phased manner
- ✓ Enhance skills and add value.
- ✓ Work on real life projects
- ✓ Give a real life scenario and help to create applications more complicated and useful
- ✓ Mentoring through email support.

We would like to send a great thank to our professor, Mr Le Thanh Nhan and others student for the addorable supports during the time in project.

Beside serveral mistakes we had nade the project we hope to have more oppotunities to widen our knowndlege in web developng world

We also thank you so much for your infomation and the "demo project from India APTECH to help us get more reality expeience in this project Since we have ganed

more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely

Team Group 01

Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application

The objective is not to teach us front-end or back-end technology but to provide us with a real life scenario and help us create basic applications using the tools

Hence, we can revise the chapters before we start with the project

This project is meant for students like us who have completed the module of Semester II, as well as special subjects those are Java and PHP These programs should be done in the Lab sessions with assistance of the faculty if required

The website (in this project) is a world that brings everything about the potteries and crockeries into your experience

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given

| Effective Date: 12/10/2022 | Version 1.0 | Page No: 1 of 46 |

Problem Definition

Bright World is the store that sells LED Lights. Now with the changing environment, they want their presence on Internet. Hence they need to have a website with all their products listed on the website. Consumers can find it easy to view various products and decide upon purchasing the right product to meet their requirements.

A website needs to be designed to display various lights available with the store. Details of locations using GeoLocation API (eg. GoogleMaps), feedback must be included.

The website is to be developed for the Windows Platform using HTML5, JavaScript, PHP, MySQL and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

Requirement Specification:

1. The Web site is to be created based on the following requirements.
2. The Home Page should be created making use of Sections with a suitable logo, the header section can be added which will show images of various LED Lights.
3. The site must contain the links to navigate through various types of LED Lights.
4. Links of LED Lights can be categorized like (Bulbs, Spot Lights, Decoration Lights, Smart Lights etc.)
5. Specification and Pricing of Lights should be added along with the images.
6. Website should provide section for various brands offered in the store.
7. Gallery section should be added for viewing different images.

| Design Plan: BrightWorld | Document Name: Problem Definition | SWD/Form No.01/PD/Ver1.0 |
| Effective Date: 12/10/2022 | Version 1.0 | Page No: 2 of 46 |

8. Site map, Gallery, about us, Queries link, Contact us link must be added. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps) and the email address which when clicked will invoke the local mail client from where they can send an email.
9. The complete description must be allowed to get download as pdf or doc file.
10. The advertise section with various facilities provided should be mentioned.

Based on the need stated in the Project overall, we design an application that will provide the key features and function as the followings:

- Provide function for member register;
- Provide information of the product to customers and members;
- Provide shopping cart function so customers and members can order products;
- The member can take their privacy through member control panel;
- Receive comments from customers and members to improve service quality as well as product quality;

Admin control panel that support about management system:

- Administrators the ability to manager delivery progress belong to orders;
- Administrators the ability report statistics;
- Administrators the ability to add, update product information quickly and accurately;

The role of Admin and User:

1. Admin:

- Can add/ edit/ deactivate products and categories;

| Effective Date: 12/10/2022 | Version 1.0 | Page No: 3 of 46 |

- Can view customer is information or deactivate an account;
- Can view all order and approve orders;
- Can view report statistics;
- Can reply the feedback or comment.

2. User:

- Can view their order;
- Can view and buy products;
- Can register as a member and manage personal account;
- Can give feedback, comment, rate about products.

Customer Requirements Specifications

Describe the data processing process for each object

1. Webmaster:

Input:

- Log in
- Administrator login information
- Product and category information to add / edit / delete.
- Member information to be search / delete.
- Order information to be search / approve.

Process:

- Add / edit / delete products.
- View all orders.
- Update order status.
- View information of all members.
- Change member account's status.

Output:

- Log out
- Notification to add / edit / delete products success or failure.
- Notification to change member account's status.
- Notification to update order's status.

2. User:

Input:

| | | |
|------------------|------------------------------|------------------------------|
| | Prepared by (Student) | Approved by (Faculty) |
| | Project Group No: 01 | LE THANH NHAN |
| Signature | | |
| Date | | |

| Effective Date: 12/10/2022 | Version 1.0 | Page No: 5 of 46 |

- Log in
- Member registration information.
- View product's information.
- Order selected products.
- Feedback about products.

Process:

- Search products from database by categories, by product types.
- Process customer registration information.
- Process product's feedback.
- Process customer orders.

Output:

- Log out
- Notification of success
- Successful registration or failure.
- Product information.
- Notification of successful make order.

Hardware / Software requirement

| No | Item | Description |
|----|------------------|---|
| 1. | Operating System | Window 7, 8, or higher |
| 2. | Hardware | CPU Cores or better with 2GB RAM or better |
| 3. | Web Browser | Version later of Edge, Firefox, Chrome, etc |
